

# Product Guide

## M Series

# M Series

*Manufactured Housing Evaporator Coils*

## The Premier Upgrade for Any System

Introducing M Series manufactured housing evaporator coils by ADP. These coils match perfectly with your system, providing an upgrade over standard manufactured housing coils.

Pressure tested twice for superior performance at higher R-410A operating pressures

High performance lanced-fin design for improved efficiency

Filter friendly top plate allows an air filter to be placed directly on top of coil

Sized out down-turned headers for easy line brazing

TXV with all threaded connections; no brazing required

Coils charged with dry air for greater flexibility with both R-22 and R-410A applications

## Blow-off Protection

ADP provides enhanced protection to prevent condensate blow-off.

### Patent pending design

*Reduces condensate blow-off that can occur in downflow installations*

### Reduced installation time

*Drip shield molded into pan, no installation required*

## Contoured Drain Pan

ADP coils are designed to remove unhealthy standing water from the drain pan.

### Sloped drain surface

*Superior drainage versus standard manufactured housing coils*

### Enhanced air quality

*Reduced opportunities for mold and bacteria growth due to standing water*

## The ADP Advantage

### FLEXIBILITY

ADP tailors custom solutions to meet your unique market needs.

### QUALITY

ADP proprietary testing technology ensures leak-free performance at the higher operating pressures of R-410A systems.

### SERVICE

ADP coils are made for seamless installation and easy access.

### ENERGY SAVINGS

Models are available to achieve higher SEER levels for ENERGY STAR compliance, utility rebates, and federal tax credits.

### WARRANTY

M Series coils feature an available 10-year limited warranty. Simply register online at [www.adpwarranty.com](http://www.adpwarranty.com).

# Product Nomenclature

Made in the USA  
from US and imported parts

**M 24 E32 6**

### Cabinet

**M:** Manufactured Housing  
(Uncased)

### Nominal MBTUH

### Slab Number

E30  
E31  
E32 etc.

### Metering Device

- 1: Piston (R-410A) <sup>[1]</sup>
- 2: Piston (R-22) <sup>[1]</sup>
- 6: Non-bleed A/C TXV (R-410A)
- 7: Bleed HP-A/C TXV (R-410A) <sup>[2]</sup>
- 8: Bleed A/C TXV (R-410A) <sup>[2]</sup>
- 9: Non-bleed HP TXV (R-410A)

[1] Piston will always be sized to match the nominal BTU rating of the coil

MBTUH	R-22	R-410A
12:	41	41
18:	53	49
24:	59	53
30:	67	59
36:	73	67
42:	80	73
48:	84	76
60:	93	93

[2] 7 and 8 valve options available only for York family products
