

MINI-SPLITS

SINGLE-ZONE
HYPERTEK
MULTI-ZONE

REDEFINE INDOOR COMFORT WITH
MAXIMUM EFFICIENCY, CONTROL, FLEXIBILITY & CHOICE

INVERTER TECHNOLOGY

To control room temperatures and maintain desired settings, the inverter compressor only uses energy required rather than full power like a standard compressor. Once it turns on and reaches desired setting, the inverter compressor will remain at that setting until more supply is needed. This prevents the unit from turning on and off frequently and uses different rotation speed to save energy and operate more quietly than standard compressors.

INVERTER TECHNOLOGY VS. STANDARD COMPRESSOR

SINGLE-ZONE

FLEXIBILITY OF MULTI-DESIGN SYSTEMS

Single-zone ductless mini-split systems provide the option to customize indoor comfort in a single space environment.

See page 3 for details.

HYPERTEK COLD CLIMATE CONTROL

New HyperTek heating allows operation at colder temperatures than previous models. Low temperature heating has been extended to -13°F with up to 90% capacity, and maximum operational heating down to -22°F.

See page 4 and 5 for details.

MULTI-ZONE

FLEXIBILITY OF MULTI-ZONE SYSTEMS

- Available in multiple configurations and capacities
- Up to 5 rooms can operate at different temperatures for comfort and efficiency

See page 6 and 7 for details.

The 2PAMSDH is designed for concealed applications within the ceiling, horizontal ducted units provide comfort, system flexibility and efficiency.

SINGLE-ZONE MINI-SPLIT

17 SEER

HIGH WALL

OUTDOOR

Single-zone ductless mini-split systems provide maximum comfort, efficiency and control for single space environments. Perfect Aire offers single-zone split systems from 9,000 Btu (3/4 ton) up to 36,000 Btu (3 ton) systems for use as primary cooling or heating sources—or as supplemental solutions to more challenging applications.

HYPERTEK MINI-SPLIT

HIGH EFFICIENCY & HEAT CAPACITY UP TO 25 SEER

Pair any choice of Perfect Aire® multi-design indoor air handlers with our high-efficiency, inverter-driven, single-zone condenser to meet individual aesthetics and climate needs. No matter the weather challenge, keep comfortable with cooling and HyperTek heating that deliver high performance at both ends of the personal comfort spectrum with an operational temperature range from -22°F to 122°F and energy star certification.

HYPERTEK VS. REGULAR SYSTEMS HIGH CAPACITY IN LOW TEMPERATURE

MULTI-ZONE MINI-SPLIT

GENERATION II - UP TO 22.5 SEER

Multi-Zone Mini-Splits allow cooling or heating more than one room by zoning areas of a home, office, etc. Each system uses one outdoor condenser/compressor unit connected to up to five indoor air handlers. Each indoor unit is independently controlled. They are ideal for hospitals, nursing homes, dormitories, apartments or anywhere individual temperature settings are desired.

PERFECT AIRE MINI-SPLIT SYSTEMS ARE DESIGNED TO PROVIDE **COMFORT, ENERGY EFFICIENCY, CONVENIENCE, RELIABILITY AND AIR QUALITY.**

COMFORT

360° AIR FLOW PANEL

Provides equal, fast and wide-range cooling in all directions

TURBO OPERATION

Unit maximizes cooling or heating output capacity, to attain desired temperature in the shortest amount of time

HEAT PUMP

- Provides year round comfort allowing unit to reverse refrigerant process in cold weather, by extracting outside heat and transferring inside
- Excellent for house additions without forced air heating systems or where ductwork is not possible

ANTI-COLD-AIR

Prevents cold air from blowing out at the beginning of operation by automatically regulating fan speed according to temperature

ENERGY SAVING

SLEEP MODE

Unit automatically increases (cooling) or decreases (heating) 2°F/hour for first 2 hours, and holds steady for next 5 hours before switching off and returning to preset temperature for both energy savings and comfort

HYDROPHILIC ALUMINUM FIN

- Improves indoor unit cooling efficiency by enabling unrestricted flow of condensate water between aluminum fins
- Improves outdoor unit heating efficiency by accelerating defrosting process

GOLDEN FIN

Anticorrosive coating on indoor and outdoor units withstands salty air, rain and other corrosive elements while improving heating efficiency by accelerating defrosting process

RELIABILITY

LOW AMBIENT KIT

With a special built-in kit the air conditioner can be used in temperatures as low as 5°F for cooling

SELF-DIAGNOSTIC FUNCTION

Allows unit to detect abnormal operations or part failures, display an error code on the indoor unit, and switch off automatically to protect the system

AUTO DEFROSTING

Evaporator automatically defrosts prolonging product life and improving energy savings

REFRIGERANT LEAKAGE DETECTION

Displays EC error code on indoor unit if outdoor unit detects a refrigerant leak condition

CONVENIENCE

FOLLOW ME OPTION

Remote control with built-in room temperature sensor regulates room temperature around remote—allowing remote to become the thermostat

AIR QUALITY

SILVER ION FILTER

Nano Silver attached to filter releases Silver Ion to kill or deactivate bacteria

MINI-SPLIT WARRANTY

Warranty covers all defects in workmanship and the internal parts contained in this system for a period of 30 months from the date of purchase from distributor. Warranty covers the original purchaser of this product only. You must have your original invoice in order to obtain your warranty. Perfect Aire will replace any part, or, at its discretion, unit found to be defective in material or workmanship through a 30 month exchange for the same make and model. This is a one-time replacement warranty. The defective unit must be returned to the original place of purchase.*

The compressor is warranted for a total period of 7 years to the original end-user of this system. For a period of 7 years from the date of installation, if the compressor should prove defective due to workmanship and/or material, Perfect Aire will replace the defective compressor without charge. Replacement compressors are warranted for the remainder of this 7 year warranty period. Compressors used for replacement shall be of like kind and quality and may be new or remanufactured. Defective compressors must be made available to Perfect Aire in exchange for the replacement compressor and become the property of Perfect Aire.

*Dealer policy may override manufacturer's exchange warranty. Contact your store for details.

See full warranty for complete details.
