13 SEER Air Conditioning AccuCharge® Split Systems

New Corner-Post Design with louvered panels are easily removed for service, while protecting the coils from yard debris and extreme weather.

Improved Composite Drain Pan design has more drainage holes for condensation evacuation and molded steps to prevent coil shifting, all in 1 of 2 standardized footprints.

Corner-Post Packaging creates a gap around the entire unit, minimizing pressure on the unit structure and contact with the carton, so your unit arrives safely to the customer.

AccuCharge® Systems consist of pre-charged quick-connect equipment and line sets; significantly reducing the time and skill-set necessary to install a system.

Dependable Warranty handled directly by Style Crest®; including 1st-Year Labor coverage and 5-Years of Parts coverage.

13 SEER can only be sold in the
Northern DOE Region
